## IT'S A MISTAKE.

Made by Many Norway Residents.

Many people in a misguided effort to get rid of kidney backache, rely on plaster, liniments and other makeshifts. The right treatment is kidney treatment and a remarkably recommended kidney medicine is Doan's Kidney Pills. Norway is no exception.

The proof is at your very door. The following is an experience typical of the work of Doan's Kidney Pills in Norway.

"Doan's Kidney Pills are the only kidney medicine I use and they always give me relief," says W. O. Needham, retired farmer, of Main St., Norway.

"Several years ago I heard about Doan's Kidney Pills and I began using them. They got my kidneys working right and when that was done, the urine poison in my system was removed. I procured Doan's Kidney Pills at Stone's Drug Store and I know that they can be relied on."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills, the same that Mr. Needham had, Foster-Milburn Co., Props., Buffalo, N. Y.

TEN WEEKS IN BED--EMINENT PHYSICIANS FAILED--WONDERFUL RECOVERY.

I wish to inform you of the great benefit I have derived from the use of Swamp-Root. I had been a sufferer for more than twenty years from kidney and liver trouble and was almost constantly treated by the most eminent physicians who could only give me temporary relief. I had been in bed ten weeks when I began the use of Swamp-Root. Inside of twenty days I was able to get up and I had been greatly benefited. I continued to use Swamp-Root until I had used several bottles when I really felt that my old kidney was completely cured and I am positive that any person suffering with kidney or liver trouble can be cured by the use of this preparation. I am now in the best of health, better than I have been for ten years or more. I do not know how to express myself as strongly as I desire, in favor of Dr. Kilmer's Swamp-Root, as I am sure that it saved my life and that my good health is due entirely to its use. I heartily recommend it to every sufferer, and am confident they can be benefited as I have been. It is a pleasure for me, gentlemen, to hand you this recommendation. MRS. H. J. PRICE, 1406 Center St., Portsmouth, Ohio.

Personally appeared before me on the 10th of September, 1909, Mrs. H. J. Price who subscribed the above statement and made oath that the same is true in substance and in fact.

R. A. CALVERT, Notary Public.

Letter to Dr. Kilmer &amp; Co., Binghamton, N. Y.

You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Norway Weekly Oxford County Advertiser. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

## WHEN THE ICE GOES DOWN.

The mighty grip of the King Who rules in the winter time, When his legions from Arctic regions swing Toward the South with song and rhyme, Conquering then the russet land, Buried deep with snow, Prising streets with steel-blue bands, Death-carrying as they go.

Broken, defeated, he now retreats, He melts his legions are; Oncoming Sun his rear-guard meets, He is the head for the Polar star, While the robins sing for the victory, The violets bloom again.

And the icy flocks to the ocean go, Like corpses from corpses of men. So the souls of women and souls of men, Frozen and maimed by Fate, When the winter of life so long has been, Bloom into real life, though late.

When their troubles go and the life-sun glows, When the ice floats down—ah, then Blooms joy, like the fragrant, bursting rose— Life's summer comes back again!

Allison Libby Thomas, to part  
 with one of its oldest citizens, Uncle Al-  
 lison Thomas. He was born in Gorham,  
 Oct. 21st, 1825, being nearly 90 years of  
 age. In December, 1913, he was pre-  
 sented with the Boston Post gold headed  
 cane for being the oldest gentleman in  
 town.

Mr. Thomas was a very interesting per-  
 son to converse with and retained his  
 faculties to an unusual degree, always  
 at work a spite of his years.

He was married fifty years ago to  
 Melvina Buchanan of Harrison, who died  
 eleven years ago. During all  
 their married life they made their home  
 on the Buchanan farm which was Mrs.  
 Thomas' childhood home. They were  
 very thrifty, prosperous farmers and  
 gained a competence of which they might  
 well have been proud.

A few years ago he sold his farm to  
 his grand nephew, Elmer Thomas, and  
 has resided with his only daughter, Hor-  
 tense M., wife of Fred B. Pike of  
 Cornish.

Mr. Thomas came to Harrison to visit  
 relatives about three weeks ago, and  
 when a short distance from his old home,  
 he slipped and fell on the ice breaking  
 his hip. They carried him into the  
 house where he had spent nearly his whole  
 life and in spite of all that medical and  
 a nurse and friends could do, he never  
 rallied on account of his advanced age.

The funeral services were held at the  
 home of Elmer Thomas, Saturday, March  
 20, at 1:30 p. m., conducted by Rev. L. F.  
 McKenney of Bridgton. Burial in the  
 family lot at Cornish.

 Chas. Underhill and Mrs. Chas. Coleman  
 of Manchester, N. H., Daniel Chaplin of  
 Cornish, Willis Chaplin of Portland, Her-  
 bert Pitts of Springvale, Mrs. Hiram  
 Willard of Sanford, Mrs. Elijah Stanton  
 of Portland, all relatives of the late  
 Albert S. Pitts were in town to attend  
 the funeral.

 Little's.

 Llewellyn Welch of South Oyster.

 sold to Firms.

John Lyden, who went to Lynn, Mass.,  
 in the early winter, on account of poor  
 health, writes that he is much better,  
 and that he will soon return to his farm.

South Harrison mourns deeply the loss  
 of two highly respected citizens who were  
 born and spent their boyhood days there.  
 Geo. W. Newcomb of Bridgton, whose  
 home was where he married a South Harrison  
 girl for his first wife, Abbie Trafton;  
 Albert S. Pitts, who was the son of  
 Samuel Pitts and whose home was on the  
 farm now occupied by Howard Randall.

Evangelist Elmer W. Krayton closed a  
 successful 17 days evangelistic campaign  
 March 18. The Free Baptist and Con-  
 gregational churches united for the ser-  
 vices. About forty persons took their  
 stand for a christian life, many were  
 helped by the forceful, instructive mes-  
 sages of the evangelist and his singers.

### ALBANY.

Wagons began to go through Hunt's  
 Corner about March 18th.  
 Ed. Shedd and Roy Lord of North  
 Waterford were here at the Corrier a few  
 days with five horses and boarded with  
 George Buckman's folks on the D. A.  
 Cummings place. Mr. Shedd is a man  
 that when he takes a job to haul pulp  
 he is bound to haul it even if he does  
 have to put five horses onto one sled to  
 haul the same load that he could have  
 hauled two months ago with one pair.

Mr. Shedd is the kind of a man that one  
 likes to let jobs, for he always gets them  
 done. We are sorry to have him leave  
 town.

Abel Andrews remains quite feeble and  
 expects to go to the Lewiston hospital.  
 Nina Bean has gone back to her school  
 in New Hampshire, after a short vaca-  
 tion.

 after spending a few days with her sister  
 who lives in France and has been sick.  
 The people in this community were  
 saddened on hearing of the sudden death  
 of Elbridge Prince of North Albany.

He had been a life long resident of Al-  
 bany and held the office of selectman, and  
 was very industrious farmer. He was  
 small man in stature but it took a pretty  
 smart man to jump farther or lay him  
 on his back forty years ago when the  
 young men and boys used to indulge in  
 wrestling at March meetings.

DEVON.

Devon is one of a dozen good points. There are hundreds of bad ones. As likely as not, Devon is the only good one in this town.

F. P. Stone, Norway; F. N. Wright, South Paris; Emery & Shaw Co., West Paris sell it.

BEHIND the humor in this drawing we can read a little MORAL. Many folks are as SOFT as the snow man when the SUN of PROSPERITY beams down on them. They hold up a thin umbrella of GOOD INTENTIONS and cry: "See, we are playing safe. We're not spending more than we make." But the cloud, SUDDENLY, hides the sun. They are left a shapeless, melted mass. Then they are SOBBY they didn't contract a steady, thorough BANKING HABIT.

We pay 2 per cent. interest on check account of \$500 and over, on even hundreds. Interest credited to your account last of every month.

## JOSEPH ANDREWS' LETTERS

I am sending you cuttings from the Tropics and Glendale papers with regard to the death of Henry Burbank, that will be of interest to many of your Fryeburg and Lovell readers, and others in near by towns:

"Monday morning, Jan. 18th, about 8 o'clock, the lifeless body of Henry Bailey Burbank was found hanging in a closet at his home, 307 Blanche avenue, Tropico. The young man had taken his life some time during the night. Ill health is the cause assigned for his rash deed."

"Mr. Burbank had resided with his mother at the above address for the past four years. He was born in the state of Maine 36 years ago and was a carpenter by trade."

"The aged mother, who is prostrated at her son's death, is the only relative in this vicinity."

"The remains are at the undertaking parlors awaiting a coroner's inquest and message from relatives in the East."

"On Tuesday afternoon at the home of his mother occurred the funeral services of Henry Burbank, whose sudden death ended a life of unusual beauty and tender devotion. Rev. A. B. Shoemaker of Covington, read the funeral sermon and spoke comforting words of the life of helpfulness and loving service which he had been privileged to know in Mr. Burbank."

Mrs. John Hobbs and Mrs. A. Stephens sang two beautiful selections and the many lovely and loving friends and neighbors. Hal Davers, Dr. Morse, W. G. Black, H. W. Walcott, W. Heald and M. Ludden acted as pallbearers. Sovereign-Letton-Frey, the local morticians, ably took care of the arrangements. Mrs. Burbank's niece, Mrs. Fitch of San Diego, came up for the funeral and Joe Andrews, a brother of Henry Burbank, plans to make his home with his sister.

In my last letter to the Advertiser I stated that I planned to spend the winter in California, and with that object in view I started West the day after Thanksgiving. I visited over Sunday with my old time friends, Henry Heald and wife at Madison, Wis., whom I found in good health for people of their age.

From near Hurley, S. D., where I remained about three weeks. And while there I received letters from some of my friends advising me not to go to California on account of the mental collapse of my nephew. So I returned to Ohio, as I planned to spend the winter there, and go to California in July and in Maine and to California about next September.

But on January 18th I received a telegram from my sister saying that Henry had hung himself that morning. So I made my preparations in haste and on Saturday morning arrived safely here in Tropico.

Henry Bailey Burbank was born at West Fryeburg, Maine, some 37 years ago, the son of Abbie A. and E. W. Burbank. In the latter part of December, 1897, he and his mother left their home at West Fryeburg for a home home, too pleasant and came to make their home with me at Hurley, South Dakota.

My first three years Henry worked for me on the farm. Then for a change he worked one year in the carpenter trade. And the next year he worked for his cousin, Andie Powers, upon his farm, and his sixth and last year as a common laborer he worked for me. I then rented him the farm for seven years, during which time, by hard work, good management and industry, he accumulated the snug little sum of between \$6,000 and \$7,000.

Five years ago, owing to failing health, he and his mother with Uncle Joe as chaperone, came to California, and located in this beautiful, little city of Tropico, but a few miles distant from the great city of Los Angeles with which it is connected by the electric cars which give a fifteen minute service. During his first two years here he bought the land and built three modern five-room bungalows for himself and one for his cousin, Andie Powers, upon his farm, and his sixth and last year as a common laborer he worked for me. from danger, and give his own tired brain a well rest. It was his request often expressed that in case of his death, his mother should give his father \$500, which she will do as soon as the estate is settled, which will probably be in about five months.

Henry was a warm hearted, generous young man, with few faults and many virtues. He did not use tobacco in any form, did not drink, and was not addicted to profane or vulgar language. His tragic death is a severe blow to his mother, of whom he was very tender.

Mrs. Burbank will continue to reside in the cozy little home left by her son. She has many kind neighbors, who all seem to take a deep interest in her welfare. She is in hopes that her daughter Fannie, wife of Elsworth Gile of Jackson, N. H., with their two daughters will come here and share with her her California home.

I expect to remain here as long as needed, and while here visit the two great expositions and hunt up most of my old time California friends who are living in this section. I would like to get back to South Dakota in May, and to Ohio in June, and later in the season take a trip back to my old stamping ground among the mountains, and greet once more the old friends of my childhood.

March 17, 1915.

I have been in California now for nearly two months. The winter was rather cold and rainy, but with no hard frosts, so that the fruit and grain prospects of the California farmer were never better.

My sister, Mrs. Burbank, and I spent ten days at Long Beach, the "queen of beaches," with a population of 40,000. It has a fine harbor in which there is a large Craig ship building department. There are many great manufacturing plants in the city that give employment to many workers. But its chief industry is the caring for all the tourists who come here in winter months. I think I am safe in saying that more than half of the houses in the city are apartment houses, flats, boarding houses and hotels. All the way from the 75 room apartment houses down to the neat and comfortable three room apartment. I inspected one 50x150 foot lot on which there were built six fine modern three room bungalows, all on the back end of the lot, while the front of the lot was kept for a lawn and play ground. These houses were all modern with folding beds, toilet, hot and cold water, electric lights, gas heaters, a cooking range, and furnished all ready for housekeeping and rented for about \$25 a month.

My sister, Mrs. Burbank, now living at Jackson, N. H., Mr. and Mrs. Elsworth Gile with their two daughters Beatrice and Mabel, expect to soon move over here and make their home. As soon as they get here I will be foot loose, and expect to start on an exploring tour of that is, visit California's two great Expositions. I would advise any of your readers who may come, to come or go via the Santa Fe route and see the World's greatest wonder, The Grand Canyon of the Colorado in Arizona; also the Petrified Forests. The Canyon is about 65 miles from Williams, Ariz., and the cost to me was about \$14.00 for one day and night. I found it well worth the money.

The past week it has been very fine, about like June back in the east. From letters and papers received from home in South Dakota, I learn that it has been one of the hardest winters ever known here. Many bad storms and five or six feet of snowfall all told. As I complete my round trip to California, I expect to return to South Dakota and from there go to Ohio, and if the blueberry season holds on late I expect my wanderings to the hills of old Oxford county in the Pine Tree State.

### HAVE YOU CATARRH?

It's a Dangerous Disease—Hymen is the Easy, Safe and Rapid Remedy.

Catarrh, which is usually indicated by sneezing, frequent colds, droppings in the throat and raising of mucus as a serious disease because it surely spreads to the delicate lining of the air passages, weakens the entire system, frequently destroying the hearing, and makes a mental and physical wreck of its victims.

It's as foolish to take drugs to cure catarrh as to swallow a pill to heal a broken arm. You must have a direct application—something that will at once reach the diseased tissues, kill the germs, and drive out the poison.

Hymen, that can be had from any druggist, is just such a remedy. Being a mixture of antiseptic and healing oils that you breathe through a small inhaler its health-restoring medication cannot help going direct to the raw and inflamed lining of the nose and throat, quickly relieving that choked-up feeling, stopping the mucus discharges from the nose, and healing the sore spots—you breathe freely. Even the worst cases respond at once.

There is nothing for the treatment of catarrh like that is easier, more pleasant or so satisfying as Hymen, and it is most inexpensive. Noyes Drug Store sells it on the "No-cure-no-pay" plan. 12-13

### NATURE STUDY IN THE SCHOOLS.

A School Review.  
About two decades ago the people of New York City became alarmed because it had become necessary to help many people who had come from the rural districts, having abandoned their farms. At a conference of philanthropists the reason was sought and remedies prescribed. A leading director of the New York Farmer's Institute claimed that the people had either been educated away from their environment or had not been educated to appreciate it. A short time ago a parent came to my office and complained that the teacher at their school was wasting too much time having the children hunt bugs and sticks and leaves, and everything but useful things. This parent thought that such time could better be utilized in teaching writing and arithmetic, rather than throw away valuable time for something that would never be of any value to these rural boys and girls.

I fully appreciate the point of view of the parent, because how could a parent agree to the studying of something that seemed useless, if its application was not understood? If the child had been taught some elementary facts of agriculture that it already partially knew, it would have been commendable or reasonable, and the complaint would never have been made.

So, why should we devote a part of some afternoon in each week to nature study? All will agree that it is desirable to interest the children of the country in farming, and I want to say right here that the first step in this direction is Nature Study. Why?

It was in Westchester County, New York State, 1893, that a systematic teaching of Nature Study began. It is conducted through Cornell University with an annual appropriation from the State to aid the same.

The course of Nature Study for the grades was arranged and has since been published in book form by a director of the work. It is this text that I have placed in each school and asked each teacher to present one lesson each week appropriate to the season.

As a boy at home on the farm, I always realized that there was something in nature that was mysterious and yet enjoyable. That something, I knew not what it was. The mysteries of nature always hung over me as awe-inspiring and not as an open book and companions. It was not until I had studied the sciences in High School and College that I began to get acquainted with the facts of nature, when they no longer seemed mysterious.

I am desirous that the boys and girls should not wait as long as I did to find out these facts of our every day surroundings, with which we come in contact often than we will need to use arithmetic and writing. The last named subjects have their place as well as other subjects, and no subject that can right fully come in the common school curriculum should be excluded, but have its proper place and attention.

City children have been given courses in nature study during their vacations in the country, so that many of them know more about nature than the country boy. Many a country boy and girl has been come coarse and vulgar in delightful nature surroundings, because he knew nothing better to do. Therefore, for the want of something better to do, because of the lack of knowledge, the whole trend of his life was changed.

Nature study gives the child practical and helpful knowledge. It cultivates ability to look and see what is true and a power to impart the same. All things ways proven by searching for the truth. Probably half of falsehood is due to lack of power to detect the truth and express it. In such acquired knowledge, the powers of observation and expression are developed. It cultivates a love for the beautiful, as one discovers color, form and music. A person who cannot enjoy all of the above, needs consideration rather than censure, as the better side of his nature is undeveloped.

The student of nature sees in his environment the beauty of the fleecy (cumulus) cloud, the beauty of the oriole and tanager, the purple shadows on the snow and the sheen of the butterfly's wing. He reads the music score of the bird orchestra and recognizes each separately acquired friend by its note. The patter of the rain and the sighing of the wind through the pines are all knowledge to the nature student.

But, more than all, nature study gives the child a sense of companionship with life out of doors, and a knowledge of the lasting love of nature that lifts him from vulgar possessions. Anyone not in sympathy with the introduction of nature study into our schools is prompted not by positive but by negative knowledge of the subject.

## 2 Drops of "GETS-IT," Out Comes the Corn!

It's the World's Wonder; Never Fails.  
You'll make goo-goo eyes at your feet,  
after you use "GETS-IT" and you'll find  
the places where those blistery corns  
used to be, just as smooth as your cheek.

"How Wide is a 'GETS-IT' Smile? Well, a  
Good Deal Over 2 Feet!"

There's no corn or callus among the  
millions of feet in the world that "GETS-IT"  
will not remove—there's no escape.  
"GETS-IT" is the new way, the simple,  
common-sense, sure way. It does away  
with greasy ointments, salves, pads, cot-  
ton rings, harnesses, knives, scissors,  
razors, files, and the limping and the  
painful pigeon-toe walk of so many corn-  
sufferers. All you do is put 2 drops of  
"GETS-IT" on the corn shrivels up and  
goes away. Nothing else in the world  
like "GETS-IT." Millions are using it.  
There's no pain, no trouble, no changing  
shoes because of corns.  
"GETS-IT" is sold by druggists every-  
where, in a bottle or sent direct by E.  
Lawrence & Co., Chicago.

## When You Want a Thing Done RIGHT, Do it YOURSELF

Real tobacco flavor depends upon the leaf being pre-  
served in its natural state, possible only by pressing the  
leaves into plug form and keeping it in by covering it  
with a natural leaf wrapper. The natural flavor and  
strength of tobacco escape when cut or granulated.

Take a Plug of Sickle that is even thoroughly dried  
out so that when you whittle it off it crumbles into dust,  
but it will burn and smoke smooth, and cool as it has all  
its original tobacco flavor preserved, unevaporated in  
Plug Form.

Whittling a pipeful is little trouble, amply repaid  
in both quality and quantity. Try this experiment and  
judge for yourself.
